Church website using typescript and react, implemented a very neat design and clean typescript structure code

E-commerce site: Monomart e-commerce single seller web application built using laravel, alpine js and blade with postgresql for the database.

EDUCATION

B.Sc. Computer Science (In Progress)

Godfrey Okoye University, Nigeria

(Expected Graduation: 2027)

CAREER OBJECTIVE

To obtain an internship or freelance opportunity where I can apply and enhance my technical skills, gain hands-on experience, and contribute to innovative projects while pursuing my degree.

CERTIFICATIONS

I completed php and laravel from scratch from a lesson app called udemy under same instructor BRAD TRAVERSY under the space of two months and have gone on building sample projects to fill and creative ones at that.

PHP From Scratch | Beginner To Advanced

Laravel From Scratch
